User Researcher | Service Designer

User Researcher and Service Designer with 3+ years of experience across healthcare, digital services, cultural organisations, and community-facing environments. Skilled in planning and conducting user research using interviews, workshops, usability testing, co-design, and insight synthesis to inform service improvement and digital experience design. Experienced in translating user needs into clear, actionable recommendations for multidisciplinary teams, with a strong systems-thinking approach and a commitment to accessibility, inclusion, and evidence-based decision-making.

Core Skills

- User research: discovery research, user interviews, usability testing, workshop facilitation, co-design, qualitative synthesis, journey mapping, personas, feedback analysis.
- Service design: service blueprints, process mapping, user flows, pain-point identification, service improvement, concept development.
- Inclusive practice: accessibility awareness, lived-experience insight gathering, inclusive communication, vulnerable-user sensitivity.
- Collaboration and tools: stakeholder engagement, cross-functional teamwork, insight communication, Figma, Adobe Creative Suite, Microsoft 365, ChatGPT, Claude, UX Pilot.

Experience

Tata Consultancy Services | UI/UX & Service Designer

Oct 2022 - Present (on sabbatical)

- Planned and conducted discovery research across healthcare-related service and digital projects, identifying user needs, behaviours, and pain points.
- Facilitated workshops, co-design sessions, and user testing to generate qualitative insights and inform service and interface improvements.

- Created journey maps, user flows, and service processes in Figma, translating findings into practical recommendations for cross-functional teams.
- Collaborated with business analysts, developers, and stakeholders to balance user needs with operational and technical constraints.

London College of Communication | Student Ambassador, Marketing Team

Sep 2025 - Present

- Engaged directly with diverse student groups, gathering lived-experience insights to support more accessible and inclusive service interactions.
- Documented recurring feedback and supported events and public-facing activities through reliable coordination and communication.

UAL Halls Life | Community Lead

Dec 2025 - Present

- Supported diverse student communities, including those with additional needs, demonstrating inclusive communication and awareness of vulnerability in service contexts.
- Identified recurring concerns across community touchpoints, contributing to more responsive support and service improvement.

Indian Music Experience Museum | UI/UX Design Intern (British Council)

Jan 2022 - Aug 2022

- Planned and facilitated participatory design sessions and co-design workshops, gathering visitor feedback to refine inclusive digital and service touchpoints.
- Used rapid prototyping, personas, and low-fidelity blueprints to test concepts and support implementation-ready recommendations.

Education

MA Design Management, London College of Communication, UAL | 2025 - 2026 | Currently pursuing
Bachelors of Design - Product Design, Amity University, Noida | 2018 - 2022
